

# La participación de los municipios en programas Europeos: la experiencia de la FAMCP

Zaragoza, 31 octubre 2014

DPZ

# FAMCP

1. Nace en 2004 con el objetivo de acercar Europa a nuestro territorio mediante diferentes acciones
  - ✓ Apoyar a los municipios en la presentación y participación de las convocatorias europeas.
  - ✓ Difusión de las políticas de la UE que afectan al nivel local.
  - ✓ Formación para los técnicos y personal de las entidades locales en las oportunidades de financiación que existen en los diferentes ámbitos:
    1. Desarrollo rural
    2. Medio Ambiente
    3. Innovación

# Servicio Europa

6. Networking: Coordinar municipios con las mismas necesidades y objetivos en Europa.
7. Difusión de información europea de interés para los municipios (Boletín Europeo de DGA)
8. Gestión y ejecución de las actividades

Colaboración con el resto de departamentos FAMCP:

- ✓ Formación
- ✓ Asesoría jurídica
- ✓ Comisiones de trabajo (servicios públicos y financiación, pequeños municipios, medio ambiente....)

# EU Projects

NAME	PROGRAMME	OBJECTIVES	YEARS
<b>Zero Waste Pro</b>	INTERREG MED Capitalization	Promotion of all results and outputs of the partners' MED and other EU funded projects that are related to the sustainable solid waste management practices of prevention, reuse, recycling and composting. The communication strategy of the project will disseminate the results and increase the application of the tools produced to more countries, more regions and municipalities. It aims to incorporate the use of the results and outputs in the local and regional waste management policies <a href="http://www.zerowastepro.eu">www.zerowastepro.eu</a>	2013-2014 Famcp Budget: 100188€
<b>SHAPES</b>	INTERREG MED Capitalization	EU co-financed project that will share information, knowledge, tools and services engaging public institutions and private organizations to support the production of social, economic and cultural innovation in the Mediterranean regions.	2013-2015 Famcp budget: 80.000 €
<b>SMART+</b>	INTERREG IV C	Promotion of the participation of innovative SMEs as fundamental part of the economic and social development of the regions. <b>Σφάλμα! Η αναφορά της υπερ-σύνδεσης δεν είναι ιέγκυρη.</b> <a href="http://www.smartplusinnovations.eu">www.smartplusinnovations.eu</a>	2010-2013 Famcp budget 854000€
<b>WASMAN</b>	INTERREG MED	Waste management as local policy. <a href="http://www.wasman.eu">www.wasman.eu</a>	2009- 2012 Famcp Budget 195700€
<b>OPEN</b>	PROGRESS (FSE)	The Open Method of Coordination as implementation tool in Social and inclusion policies.	2009-2011 Famcp Budget:96168€
<b>WEL-HOPS</b>	INTERREG IIIC-ESTE	Wellness policies for elderly housing.	2005-2008 Famcp B: 172900€

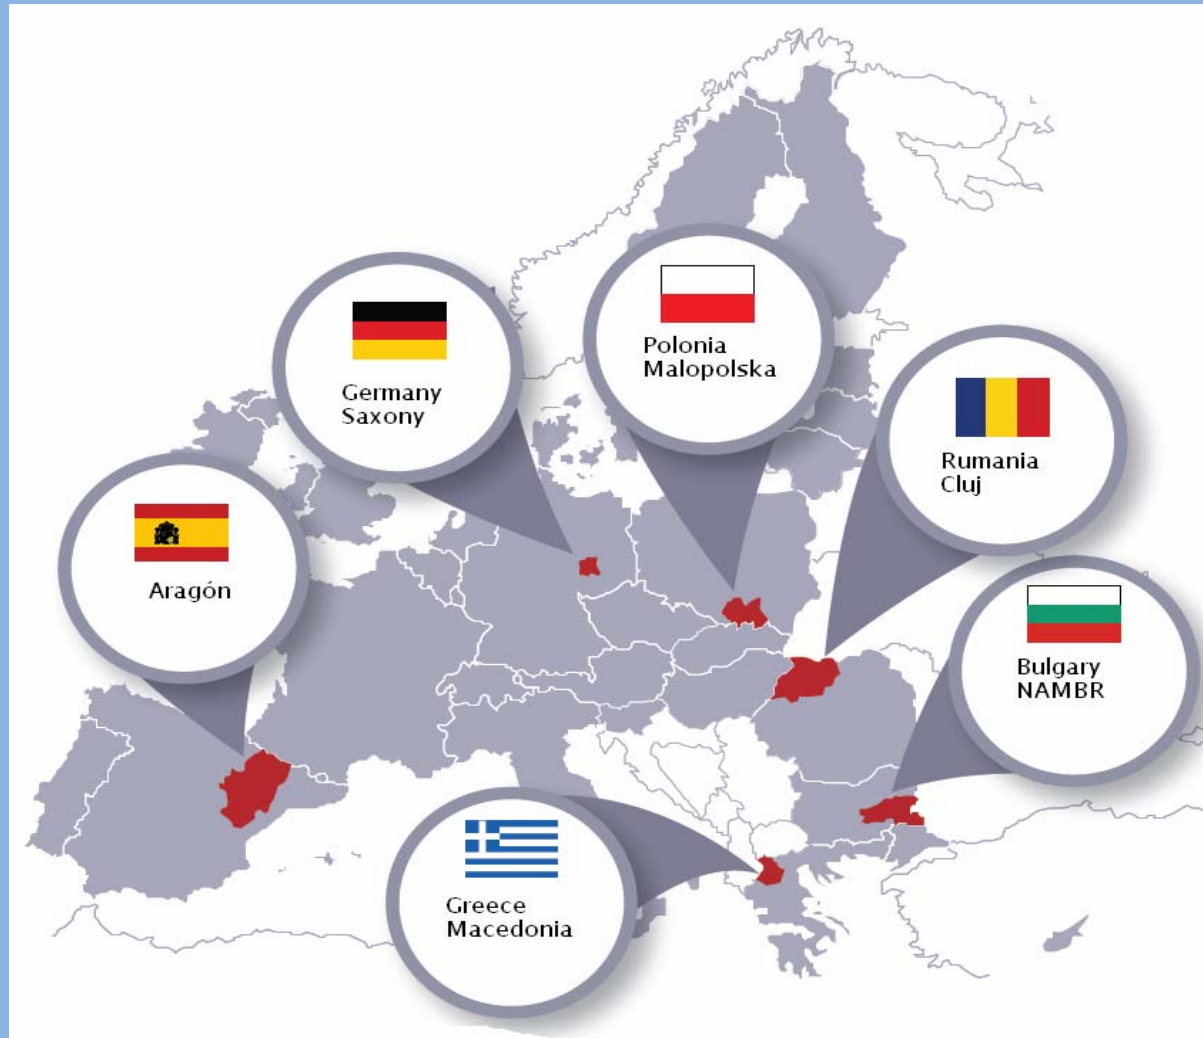

# SMART +: aspectos básicos

- Interregional Cooperation Programm: Interreg IVC (prioridad: innovación)
- Objetivos:
  - Contribuir a las políticas regionales de Innovación u promover la capacidad innovadora de las PYMEs
  - Presupuesto: 4.004.000 € (3.233.000 € FEDER).

Más del 51 % del presupuesto destinado a la  
Financiación de 7 subproyectos

# SMART +: Socios

# SMART +: sub-proyectos

- **IART Territories:** turismo innovador y responsable de acuerdo con los valores endógenos del territorio (Comarca Campo de Borja)
- **Innofin:** fortalecer las competencias de los gestores de mecanismos de financiación (públicos y privados) en fases tempranas (principalmente emprendedores o pequeñas empresas en sus primeras fases empresariales).
- **RegioNet:** Clusters y networks como facilitadores de la innovación y la competitividad.

# SMART +: sub-proyectos

- **SMART TOURISM:** servicios innovadores de turismo para promover el desarrollo regional
- **SMEGoNET:** PYMEs en las redes globales.
- **STP:** Asociaciones para el establecimiento de parques tecnológicos en el este de Europa.
- **TREC:** Cluster transnacional de energías renovables.

### SMEGoNet

SMEGoNet is a project carried out by 4 partners: LifeScience Klaster Krakow, Aragonese Cluster of Biotechnology "Bioartec", Babes-Bolyai University Cluj-Napoca and University of Western Macedonia Research Committee. It targets small and medium-sized enterprises and academia from life science and related sectors. The main goal of the project is to increase capabilities of cluster-type initiatives and individual SMEs and R&D institutions.

22 February 2012 by [Ewa Biskup](#)

## Partners

Partners of the SMEGoNet project as well as members of the Global Innovation Network are legal entities which aim — together and individually — to foster innovation and advancement in life science through interdisciplinary, multilevel collaboration between business and science sectors.

## SMEs Go Global Network

The SME Go Global Network (SMEGoNet) aims to increase capabilities of both clusters initiatives and its members, to professionally define and manage joined innovation initiatives increasing its local and global competitiveness. Project is targeted at small and medium size businesses but also involves other private and public organisations – SME's partners within innovation networks.

To that end, the project will focus on:

1. identifying and promoting value-added services tailored to needs of SME's
2. promoting entrepreneurship and innovativeness
3. building skills for effective collaboration within local and international networks
4. providing support to SME's in the process of internationalisation

## Sub-Project Fact Sheet

### Partnership for the establishment of Science and Technology Parks in Eastern Europe

Acronym: STP  
 Total budget: 226717,22 €  
 Amount of SMART+ funding: 185931,72 €

#### Partners:

- ★ North-West Regional Development Agency, Cluj-Napoca, NWRDA (RO)
- ★ Burgas Municipality (BG)
- ★ WALQA Technology Park (ES)
- ★ Centre for Research and Technology Hellas / Institute for Solid Fuels Technology & Applications (CERTH/ISFTA) (GR)

#### Short description:

The overall objective of STP is to contribute to the competitiveness of regional economies in the EU, namely in the four targeted regions, by introducing and adopting good practices and experiences in setting-up and developing Science and Technology Parks (STPs) and adapting them to the needs of the local business and research environment, by enhancing cooperation between academia, business and authorities. The aim is to set up all aspects of the preparatory framework in Cluj, Burgas and Ptolemais/Kozani, to create the necessary conditions to build up Science and Technology Park in the three regions (after the end of the project).

#### Key outcomes:

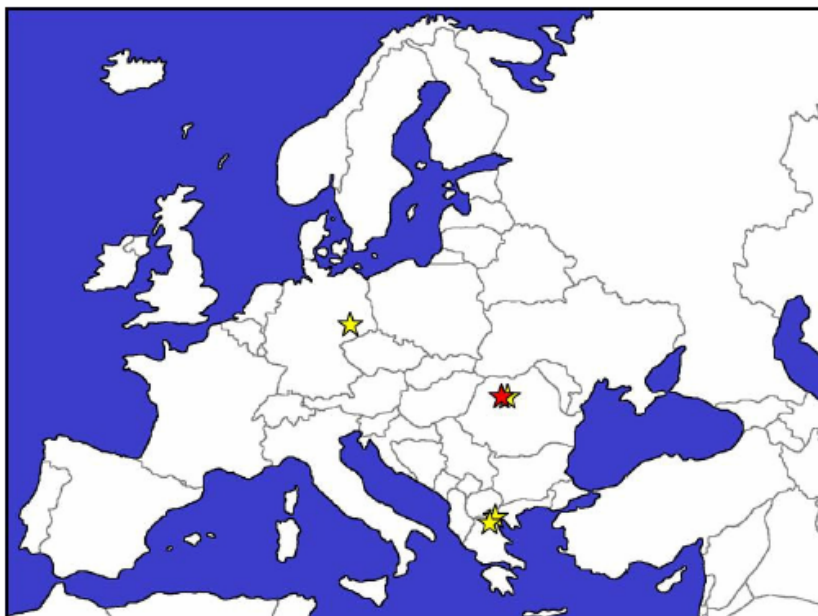

- Joint economic market study in the 1 for 1 region
- Training seminar performed by WALQA and experts
- Meetings between business, academia and public sector, getting involved in project activities and future STPs to be build up

# TREC

## Transnational Renewable Energy Cluster

<b>Acronym:</b>	TREC
<b>Total budget:</b>	291.836,80 €
<b>Amount of SMART+ funding:</b>	240.345,28 €

### Partners:

- ★ North-West Regional Development Agency, Cluj-Napoca, NWRDA (RO)
- ★ INCDO-INOE2000, Research Institute for Analytical Instrumentation subsidiary, ICIA, Technology Transfer Center CENTI (RO)
- ★ Centre for Research and Technology Hellas / Institute for Solid Fuels Technology & Applications (CERTH/ISFTA) (GR)
- ★ Waste Management of Western Macedonia S.A. (Diadyma S.A.) (GR)
- ★ German Biomass Research Centre DBFZ (DE)

# SMART TOURISM

## Sub-Project Fact Sheet

### The Role of Innovative Services in the Tourism Market to Support Regional Development

Acronym:	SMART TOURISM
Total budget:	324.308,00 €
Amount of SMART+ funding:	266.639,00 €

#### Partners:

- ★ Burgas Municipality (BG)
- ★ Regional Development Agency of Western Macedonia (GR)
- ★ Association for planning and development for the Witznitz lakes (DE)
- ★ Municipality of Servia-Velvento (GR)

#### Short description:

SMART TOURISM aims to increase the attractiveness of tourism destinations by promoting regional development through holistic marketing-management strategies, support of small and medium-sized tourism enterprises, and enhancing competitiveness. The goal of the project is to exchange experiences about destination management activities and good practices in mobile applications, to identify the relevant players in the regions and to set up collaboration among them along the value generation chain within this sector. Furthermore, destination management activities should be supported by electronic means (e.g. software) to generate additional information and to create dynamics in the sector. Finally, the project shall contribute to the vision to build regional tourism clusters and to set up collaborations on an interregional/international level.

THE BEST WAY  
TO MANAGE  
YOUR WASTE

European regional development project

### The project WASMAN

Most of Mediterranean (MED) countries have to face the increasing quantities of generated waste. European waste management systems are often technologically different, national regulative constraints and objectives compel states to take highly complex decisions, the result is that in several Mediterranean countries proper treatment of waste remains a problem. Waste management has become a priority for many local authorities and in certain cases also for the central governments.

In that sense, the awareness that solid waste prevention and recycling help to reduce climate change impacts has been perceived by WASMAN partners as a priority topic.

#### Theme of the project

The project WASMAN intends to promote synergies and disseminate good practices at transnational level among MED countries in the field of waste management governance taking into account specific problems of each partner area. The project scope is to assist municipal governments to develop a more cost-effective Municipal Solid Waste Management system ("zero waste" strategy) and to enhance local economies incentivating cost-effective initiatives of the product-chains and identifying niches for local enterprises.

The exchange of experiences between Mediterranean regions and the diffusion of good practices related to waste management governance will help to achieve territorial cohesion in order to face up environmental, economic and social challenges such as climate change.

#### WASMAN's mission

- To establish a local waste management model for the Mediterranean region.
- To develop a more efficient and cost-effective waste management for solid waste collection, treatment and disposal in small cities and less populated areas.
- To improve territorial multilevel governance system on waste management, involving public and private institutions.
- To incorporate good practices into the waste management system.
- To improve awareness of clean environment and healthy security.
- To contribute to the implementation of Community policy and legislation on waste.
